

Communicable Disease Prevention Plan– SUBJECT TO CHANGE

Updated Feb 17, 2023

Masks

As per the most up-to-date PHO order, masks are *not required*.

Coming to class

Do not send a child to class if they have any symptoms of Covid-19 or *any* other communicable illnesses, eg. cold, flu, lice, stomach bug, etc. or if you have tested positive.

Everyone entering the building must sanitize their hands. If necessary, we may phone parents of children displaying symptoms of communicable disease in class, in order to have them picked up.

Classroom Set-up

All classrooms and common areas will have **1-3 air purifiers running at all times** they are occupied.

Food and Drink

We recommend that students bring their own water bottle, otherwise water bottles are available for sale at the front desk for \$1. **We ask that students do not eat in-class, though Preschool and Before & Care students will eat in their class rooms at designated snack time. Eating areas for other students are outside in our fenced area or in the designated area in the lobby only.** Please clean your hands before and after eating.

Student Lounge

Student Lounge is now back open for dressing room use and for students ages 9+ to wait between classes. **Please, no food in the student lounge.**

We thank you for your cooperation!
